

### *Exploring the Great Rivers of Japan (2)*

*From River-Sports Paradise Minakami to Nature Paradise Yakushima 7 days*

The town of Minakami, in the Tone River basin, is the source of Tokyo's major drinking-water supply. It boasts a cornucopia of attractions which all relate to its unparalleled bounty of water. A highly popular hot-spring resort, its position at the gateway to the Southern Alps make Minakami both a famous ski-resort & Japan's unquestioned river-activity mecca. And, its location on the historic Mikuni-Kaido trade-road, ensures its culture matches its plethora of active options. Yakushima, the sub-tropical island off the south coast of Kyushu is, thanks to its designation in 1993 as Japan's 1<sup>st</sup> Natural World Heritage Site, a natural paradise & home of Japan's oldest living trees, affectionately known as 'yakusugi' (short for Yakushima-sugi/cedar) most notably the Jomon Sugi, estimated at between 2,000-7,000 years old. Water is intrinsic to life on Yakushima not simply because it's a Pacific island, but because its 2,000 metre tall mountains attract a lot of rainfall, with islanders joking that 'it rains 35-days a month, here'. That rain feeds not only Yakushima's unique vegetation, but also its network of rivers, and Yakushima Water, which is extremely soft, with only 3 mg of calcium per litre, is so highly regarded in Japan that all waters on the island have been officially designated 'remarkable'.

This tour focuses on "water" such as rivers, lakes and hot springs in Japan, and the theme of coexistence with nature that underlies the local culture and stories woven by the water.

#### **Highlights:**

- Experience Japan's finest canyoning & rafting at the country's river-sports mecca
- Discover other cultures derived directly from water purity, such as sake-brewing and noodle-making
- Enjoy cycling through pristine, unspoilt countryside, and interact with the locals
- Experience kayaking & shower climbing in the pristine rivers of Yakushima
- An opportunity to walk in Yakushima's unparalleled tropical forests & see the Jomon Sugi
- Get a taste and understanding of the unique culture of sub-tropical island Yakushima

#### **Location:**

Minakami is 75 minutes north-west of Tokyo by Bullet Train, with a glorious northern alpine backdrop. Its neighbour, Oze National Park, is one of Japan's largest marshlands, & a mecca for hikers & nature-lovers.

Just over 60 kms off the southern coast of Japan's south-western island of Kyushu lies Yakushima Island, with a total land mass of just over 500 sqkm, and 13,000-plus inhabitants. Its highest elevation is the summit of Mt. Miyanoura, is 1,935 metres .

## Day-by-day Itinerary

### Day 1 – Tokyo to Minakami

Gathering at Tokyo Station, you'll board a Bullet Train. On arrival in Minakami, head straight to Kichijoji Temple, where the Head Monk will offer a larger-than-life welcome, suitably accompanied by warm green tea & a seasonal Japanese cake. After learning about the Temple's inherent relationship with water, and the nearby source of the Tone River, move on to Nagai Brewery, to discover the importance of water-quality in the making of Japan's most famous tippie, Sake, at a Brewery surrounded by rice fields with its own spring water on site .

Next, head west across Minakami to the charming restored settlement of Takumi-no-Sato, where one of the old residences is now home to 'Takumi-no-Sato Shokudo', a warm & simple country restaurant offering local fare foraged that morning and then cooked by the owner-chef.

After lunch, work off some calories with a bicycle ride thru the lush, expansive countryside around the Takumi-no-Sato Settlement. An energetic, yet inherently relaxing afternoon!

Arriving at our Ryokan in late afternoon, first an opportunity to stroll on the old Mikuni-Kaido trade route, on which it stands. Then, a slow-food Japanese dinner featuring locally harvested vegetables, and meat from surrounding Gunma Prefecture, while enjoying anecdotes related by the head of the 140-year-old ryokan's owner-family.

### Day 2– Canyoning and SUP in the Tone River Basin

Breakfast at a historical ryokan is a special experience. Here, change is a measured, often slow process, sometimes frustratingly so, but in the context of culture & food, tradition are more vital now than ever, & our ryokan is a perfect example of the value & charm of traditional practices.

This morning we move to Minakami's centre-stage, the basin of rivers feeding into the Tone. These are the venue for the final 2 days of the tour, which starts with canyoning. Of course, canyoning is not a traditional Japanese pastime. But, like skiing, Japan's climate and geography offer, in places, an ideal environment for river sports now popular around the World. Minakami was the cradle where canyoning & rafting in Japan were born 25 years ago, & remains its mecca, offering venues for all levels of difficulty, each with its own breathtaking natural landscape.

On a day spent mainly in a wetsuit, the ideal lunch is a casual, time-efficient re-energiser and that is what's on the menu today. Then on to SUP, the newest river sport in Japan, also ideally suited to Minakami, allowing boarders the chance to see its natural beauty from a unique angle.

This evening, a pre-dinner opportunity to try your hand at soba-noodle-making, under the tuition and watchful eye of a veteran soba chef. After expending energy making noodles, what better than a plate of the chef's finest soba, accompanied by a few of your own, to put an exclamation mark on a high-energy day!

Overnight is ... over the river! In state-of-the-art Waterfront Tents at Riverside Oasis

### Day 3 – A second day in the Tone River Basin, this time Rafting & Pack-Rafting

Few activities capture the raw power of rivers more vividly than rafting, and Minakami, with its alpine backdrop and peaceful verdant rural surroundings presents a perfect venue to experience and enjoy it. This morning offers an opportunity to see a different face of the Tone River, this time its scale and force as it descends from Minakami's northern mountains onto the Kanto Plain. The natural whitewater makes larger-boat full-scale Rafting the perfect way to experience nature, get to know companions, even let off a little steam, and create adrenaline-packed memories.

This afternoon, a chance to put the skills polished during the combined large-boat rafting this morning to use on a more personal level, in the newer style of Pack-Rafting.

On our final evening, the food focus will again be strongly on local ingredients, but this evening the environment will be closer-to-nature, in the form of a riverside barbecue, a great way to enjoy the incredible flavors of local fare, and to enjoy the company of and get to know some of the locals involved in the arrangements for our tour.

### Day 4– Bullet Train to Tokyo to catch a flight to sub-tropical island Yakushima

An early start, with a 30 minute drive to Jomo Kogen Station, to catch a morning Bullet Train to Tokyo. At Tokyo Station, we'll take the opportunity to experience the world's fourth busiest railway terminus (the top 3 are in other areas of Tokyo!), and observe some of the almost one million people who pass thru the station daily, before boarding a vehicle to drive thru Tokyo, taking in some landmarks, while heading southwards along Tokyo Bay to Haneda Airport.

On this busy transit day, enjoy another great Japanese tradition, a bento-box lunch, and check-in for connecting flights to reach the sub-tropical island of Yakushima in early evening. On arrival, drive straight to Yakushima's sub-tropical forests and UNESCO World Nature heritage areas, including, most notably, the Yakusugi Ancient Cedar Forests, centred on the incomparable Jomon Sugi tree. After an afternoon of walking, head back to the north-east coast of the island to the Seaside Hotel, and check-in for a 4-night stay, starting tonight with a hearty Yakushima dinner.

Today, don a wetsuit to get up close & personal with Yakushima's officially 'remarkable' waterways. In the morning head across the island to the Kurio River which flows into the Ocean on Yakushima's south west coast. Here, enjoy a morning of kayaking, and the opportunity to enjoy Yakushima's unparalleled nature from a very different angle.

And, for those wishing to spend a full day on the Kunio River, after a lunch by the river, there is the option of a SUP experience.

---

### **Day 6 – (provisionally) Full-day Shower Climbing on the Anbo River**

Today, we focus on another of Yakushima's major rivers, the Anbo, which runs down from the mountains in the centre of the island and into the sea at the port town of Anbo, on the east-south-east coast of the island. Anbo Port is famous for flying fish, while the course carved into the island by the Anbo River make it particularly suitable for shower climbing.

---

### **Day 7 – (provisionally) Morning environmental-Initiative Study, then Sayonara!**

Before departure, an opportunity to learn about Yakushima's efforts to protect its nature, specifically its sea turtle population, and their breeding grounds on the island.

# Information and Requirements

## **Dietary Restrictions**

We understand that food and eating are one of the most important (if not THE most important) aspects of travelling to a new destination! As such, we like to make sure that no stomach is left behind, regardless of dietary needs. Whilst some of the more remote locations may require flexibility from guests, we will do our best to cater to all dietary needs where possible. Please be sure to inform us of any allergies or dietary requirements at the time of booking to allow us to make appropriate arrangements.

## **Emergency Response Plan**

Whilst we're focused on showing you a fun and memorable time in Tohoku, the safety and wellbeing of our guests is our utmost priority! All our guides are trained emergency first-aid responders and will carry an emergency first-aid kit at all times throughout the tour. In each location, activities will be carried out under the direct guidance of locals who have years of experience hiking and trekking in the relevant mountain ranges.

Please note that in the event of unsafe or unfavourable weather conditions, the content of outdoor activities may be forced to change to ensure the safety of all guests and guides. In such cases, outdoor activity will be substituted with alternative sight-seeing activities. For your own safety and that of fellow guests, please listen and cooperate with the instruction of the guides throughout the tour.

## **Weather Conditions**

September is a very pleasant time to visit the Tohoku region. With the height of summer behind, daytime temperatures tend to vary between 18 – 25 °C with about 70% humidity. However, the weather is known to be changeable and typically several degrees cooler in more mountainous areas. We advise all guests to come prepared with adequate sun protection as well as protective layers for cooler/wet-weather. Please consult the 'what to bring' list to make sure you are prepared for all likely conditions.

Whilst the peak of Autumn foliage tends to be in late October/early November, it is possible that some slight changes of colour can be seen at higher altitudes in September.
