

The fusion of modern and 1200 years old history in National park Kamikouchi / Norikuradake

The 3 days trekking in National park of mid Japanese Alps brings you a historical and cultural experience with breathtaking views. 1st day, you will see shrines and historic places on the harsh mountain range and gathered faith, as water god in the Nara period, as praying to win wars at Edo period. 2nd day, you will trek Kamikochi, Hodaka mountain range and Yarigatake, which Walter Weston applauded and highly recommended in 'Mountaineering and Exploration in the Japanese Alps'.

The staying hut is in the same location as the novel 'Hyoheki' that is based on the actual accident. The accident had big influence of the safety rules at the time.

This 3 days trekking is for everyone who want to add a short trip to the schedule, also suits plans if you are going to the old town Takayama.

Information and Requirements

Dietary Restrictions

We encourage clients to sample the full range of food provided by the inns on our tours whenever possible. The inns are proud of their set menus, which usually consist of a multitude of carefully balanced and painstakingly produced dishes and local specialities. If you are travelling with others, you can easily swap dishes between you at mealtimes so that each member of your party eats what they like best. If you have specific dietary restrictions, please let us know these in detail – particularly what you are and are not able to eat. The better we know your dietary restrictions, the easier it is for us to provide you with the widest range of local specialities for you to try.

Inns are usually happy to provide meat-free meals if we request them at the time of booking. We can also request meals which are meat-free and without fish and seafood, though fish and seafood feature heavily in the standard Japanese diet. If requesting meals without fish and seafood, please tell us if you can still accept soups and sauces containing the traditional fish stock called dashi. Dashi is made by soaking shaved dried bonito or small dried sardines and kombu kelp. This is then strained so there are not pieces of fish flesh in the stock. It is challenging for the inns to produce meals without dashi and choices for strict vegetarians and vegans may be more limited. Vegetarian meals will be available on this itinerary.

Emergency Response Plan

Your safety is our top concern. All of our guides are experienced guides with first aid training. Your primary guide, Mr. Daniel Moore, is qualified in Wilderness First Aid and Avalanche Safety. Before your tour and before your activities, you will receive a safety briefing to alert you to any risks associated with the activity in order to mitigate these. Your guide will carry a first aid kit at all times. We do have an emergency response plan that we will implement in the event of guest illness or injury, natural disaster, or dangerous weather conditions and your guide will enact this if required with the support of our teams in Japan.

We may need to change our plans due to weather conditions to ensure the safety of the group. When an activity is not possible for these reasons, we will engage in an alternate activity that will also show you the magic of this area of Japan.
