

# Multiple Adventures Around Lake Shikotsu

---

Lake Shikotsu, a caldera lake formed by volcanic eruption about 40,000 years ago, is famous for the clear blue of its waters. In fact, official surveys have found that Lake Shikotsu Blue is Japan's clearest and highest quality water. Enjoy the best Lake Shikotsu by kayaking, cycling, climbing Mount Fuppushi, and camping at Bifue. This adventure tour features the best natural scenery and cuisine Lake Shikotsu can offer.

Mt. Tarumae on the shore of Lake Shikotsu is a well-known triple volcano – one of the rarest forms of volcano and its eruption contributed to the formation of the Koke no Kairou mossy canyon, which resulted from years of erosion.

The lake is surrounded by unique plant life, such as *Ranunculus Yezoensis*, the perennial Perfoliate Pondweed, and much more.

Lake Shikotsu is an oligotrophic lake, which influences the growth of Himemasu, a local lake salmon. Let's enjoy the beauties of nature!

### Highlights:

- Camp surrounded by views of Lake Shikotsu Blue and the volcano mountains surrounding the lake.
- Kayak through virgin nature extending from Bifue to Okotan.
- Cycle through natural caldera formations created by volcano eruptions.
- Revitalize your spirit by soaking in an open-air bath at Marukoma Onsen, which shares its hot spring source with Lake Shikotsu.
- Hike to Koke no Kairou, a mossy cloister-like canyon and mystic space created by the erosion of lava flows.
- Climb Mount Fuppushi to enjoy great panoramic views of Lake Shikotsu.

## Day-by-day Itinerary

### Day 1 -

Meet your guide at New Chitose Airport at 13:00, and transport to Lake Shikotsu by private car.

At the Lake Shikotsu Visitor Center, learn about the origin and characteristics of the lake you will tour over the next days. Then, transport to Marukoma Onsen, a time-honored hot springs spa on the lakeside. The hotel is self-sufficient for both power and drinking water, which is directly sourced from Lake Shikotsu. The hotel's open-air baths are filled with natural spring waters from the lake.

The hotel restaurant features Irori, a traditional Japanese sunken hearth used for heating the home and cooking food. Guests are served sizzling dishes grilled on the fireplace according to the old customs of Japanese households. Savor this joyful encounter while relaxing around the fire with your fellow guests.

**Dinner**                      Local Sockeye Salmon at hotel

**Activity:**                      -

### Day 2 – Close-up views of Lake Shikotsu

Kayak the lake to enjoy views of virgin nature and Lake Shikotsu Blue, Japan's finest and clearest water. Cycle around the lake amid views of its unique ecology, especially forests impacted by surrounding volcanic activities. The area is home to Yezo Shika, Hokkaido's native deer, and you may come across them if lucky.

**Breakfast** Japanese Set Meal featuring local produce

Lake Shikotsu Kayak Tour 【Time】 3 hours 【Distance】 3km

Kayak to areas unreachable by land, starting near the Bifue Camping Ground. While paddling through it, view the lake's untouched nature and 300 year-old fallen trees, which will soon give rise to thoughts on environmental preservation. Mt. Eniwa, another large peak overlooking the lake, was the site of ski races at the 1972 Winter Olympics. Many trees were cleared to accommodate race courses; today we're still dealing with the slow regrowth of vegetation in the area.

**Lunch** Lunch at Lake Shikotsu Tsuruga Resort Spa MIZU NO UTA, which serves set meals prepared with local produce and ingredients.

### **Day 3** - Koke no Kairou, a mossy canyon～Mount Fuppushi Climb

Experience the vastness of Hokkaido's nature.

While hiking Koke no Kairou (created by volcanic eruption of Mt. Tarumae about 300 years ago) and climbing Mount. Fuppushi (another of the volcanoes surrounding the lake), you'll learn about the origin, formation and stories of Lake Shikotsu and its surroundings.

**Breakfast**      Japanese Set Meal featuring local produce

Hiking Koke no Kairou, a mossy canyon      【Time】 2 hours      【Distance】  
3.6 km

Koke no Kairou is the result of years of erosion by wind and rain on the hardened lava flows created by the enormous volcanic eruptions around Lake Shikotsu.

The canyon consists of two major routes; the first with splendid views of moss and the second featuring the trailhead to Mt. Fuppushi. The cloister-like canyon is covered with more than 80 kinds of bright green moss.

Hike from the entrance along the national road to Koke no Kairou for about 20 minutes each way. Walk on a pebble road with the lake behind you.

Watch out for your footing since the road narrows with fallen trees! Then, a breathtaking view awaits you on the first route – a cloister carpeted by rich greenery.

**Lunch**      Chitose Tempura Style Burger; a local style fish sandwich with Japanese flavors featuring local eggs and salmon.

Climbing Mount Fuppushi   【Time】 5.5 hours   【Distance】 10.3 km  
【Elevation】 1071 m

At the summit, savor breathtaking 360° panoramic views of the beautiful landscape dappled with serene green and blue colors, including Lake Shikotsu, Mount Eniwa, the cities of Sapporo, Eniwa, Chitose, Tomakomai and thousands of acres of forest against the background of Mount Yotei and the Hidaka Mountain Range. For the climbing route, you'll enter the mountain from the trailhead located on the second route of Koke no Kairou (which you reached after hiking the first route). It takes about three hours to reach the summit. The degree of difficulty is not high.

**Dinner**   Japanese Kaiseki Course Meal featuring local ingredients
